(Sponsored by Rep. Calvert / Resources Committee / Transportation and Infrastructure Committee)

Quote of the Day

"The economy appears headed for a banner year...

In fact, many analysts are forecasting that the overall economy, as measured by the gross domestic product, will grow by 4.6 percent or better this year, the fastest in two decades...

But if this year's growth ends up a bit faster than that, it will be the best since the economy roared ahead at a 7.2 percent rate in 1984, a year when another Republican president - Ronald Reagan - was running for re-election."
