On Friday, there will be no votes in the House.

## Quote of the Day

"Americans understand that the broken medical liability system is threatening their access to care...Skyrocketing liability insurance premiums are forcing doctors throughout the country to reduce the number of high-risk procedures they perform, leave their states or retire early."

-- AMA President Yank D. Coble Jr., MD, referring to a bipartisan national AMA survey released 3/12/03, showing that Americans support medical liability reforms that include a cap on non-economic damages by more than a two-to-one margin.
